Amsterdam-based Staff Product Designer. My work spans enterprise automation and regulated industries. At Flexport I led the 0→1 redesign of a customs clearance platform serving global importers. At Booking.com I led vision and strategy work that directly influenced the multi-year roadmap for a newly formed product organization. At Senior Services I designed and shipped a compliance portal solo using AI-assisted development, projected to cut administrative overhead by 70% at \$0/month. Senior Services changed what I think a designer can own — now I build what I design, from concept to production.

Professional Experience

Senior Services of South Sound (Remote) • Amsterdam, Netherlands, Nov 2025 - Current **Independent Product Consultant**

Solo product lead, designer, and engineer on a custom training compliance portal for a lean nonprofit. Using an AI-assisted development workflow, I delivered a production-ready system that replaced 8 hours of monthly manual HR work with automated tracking, notifications, and audit-ready record export shipped with full technical documentation for a non-technical handover at \$0/month.

Flexport • Amsterdam, Netherlands, Jan 2022 - Jul 2025 (3 yrs 7 mos)

Staff Product Designer • Mar 2024 - Jul 2025

Led the 0→1 transition from a legacy platform to an automation-first, task-based customs clearance system as the sole designer supporting ~20 engineers. Owned the core task framework, shared design language, and design system. Shipped to production with measurable results: ISF filings began processing automatically; CI digitization capacity per operator more than doubled (50 → 110 invoices/day); and unresolved CI exceptions escalated for human review fell 71% YoY (526 → 152). Planned and facilitated a week-long onsite UAT with customs brokers and engineers ahead of scaling beyond the pilot.

Senior Product Designer • Jan 2022 - Mar 2024

Designed a financial MVP to reconcile shipment costs and revenue, translating complex accounting rules into a working prototype that automated the financial reconciliation workflow and replaced manual data entry with a high-fidelity interface designed for total financial transparency.

Booking.com • Amsterdam, Netherlands, Jun 2016 - Dec 2021 (5 yrs 7 mos)

Design Manager • Oct 2021 - Dec 2021

Led a team of 6 designers and contributed to the rollout of a global design quality program, helping to standardize quality and design execution for a design organization of 200+.

Lead Designer • Jan 2019 - Sep 2021

Led a unified 'North Star' vision for the global traveler experience to align fragmented product teams. I designed a high-fidelity experience that bridged complex traveler needs with long-term business goals, directly informing the multi-year roadmap and aligning fragmented product teams around a shared vision.

Senior Product Designer • Jun 2016 - Dec 2018

Designed a 0→1 B2B SaaS platform that turned messy pricing data into real-time rate intelligence for independent hoteliers. I mapped the business logic behind their rates to replace manual spreadsheets with automated competitor benchmarking, simplifying financial forecasting and enabling small merchants to make faster, data-driven decisions.

IBM Watson • Austin, Texas, Mar 2014 - Jun 2016 (2 yrs 4 mos)

Software Product Designer

Established the design language for developer-facing AI products (Watson Conversation, Natural Language Classifier), designing for a technical user base building on top of the APIs.

Skills

- **Product & Experience Strategy:** 0→1 Product Development, Enterprise UX, B2B SaaS, B2C Products, Experience Architecture, Systems Thinking, Stakeholder Alignment
- **Systems Design & Execution:** AI-Assisted Development, AI/ML Interface Design, Design System Governance, Information Architecture, Interaction Design, Visual Design
- **Research & Validation:** Experimentation, Data-Driven Design, Rapid Prototyping, Usability Testing, User Research & Synthesis
- **Tools:** Figma, Adobe Creative Suite, GitHub, Claude Code, Lovable, HTML/CSS, WCAG Accessibility

Education

University of Northern Iowa • Cedar Falls, Iowa, Dec 2005

Bachelor of Arts in Studio Art, Minor in Graphic Communications

Certificates

Nielsen Norman Group UX Certified • Amsterdam, Netherlands, Jun 2018

Analytics and User Experience
